Skrambler[™]2

Dual-Ratio, Dual-Product Dispenser

*for TRIM[®] CLEAN
Products*

GENERAL DESCRIPTION

The Skrambler[™]2 is a rugged, industrial dual-ratio mixer made for dispensing TRIM[®] CLEAN products.

ADVANTAGES

- Dual 3.5 G.P.M. air gap eductor proportioners can dispense one or two products at different ratios
- Heavy-duty stainless steel cabinet protects the nozzles and connections
- The patented air gap eductors meet the ANSI A112.1.2 Standard for back-flow prevention
- All components of the Skrambler2 are highly chemical resistant and compatible with the full line of TRIM[®] CLEAN maintenance cleaner products
- The Skrambler2 is easy to install and use
- An assortment of insert tips provide for mix ratios from 22% down to 1/2%

SYSTEM REQUIREMENTS:

- Skrambler2 requires at least 25 PSI tap or DI/RO water, not to exceed 85 PSI
- The air gap eductors must be mounted above the highest level of the TRIM[®] CLEAN product you are dispensing

Because conditions of use are beyond our control, no warranty, guarantee or representation is made or intended in connection with the use of this product.
