

Products Increasing Productivity

The Whammer™

Foaming Applicator for TRIM® CLEAN Products

GENERAL DESCRIPTION

The Whammer™ is a simple, durable, low-cost foaming dispenser for TRIM CLEAN maintenance cleaners.

ADVANTAGES

- The Whammer will produce a foaming spray stream of TRIM Cleaner for cleaning the surfaces of machine tools or large "clean in place" parts
- Cleaner concentration is easily adjusted with replaceable nozzles (included) from about ½% to 6%
- Foamed cleaner goes further, and the foam helps you keep track of where to spray
- The Whammer is resistant to all TRIM CLEAN maintenance cleaner concentrates
- Simple construction makes it easy to clean and use

SYSTEM REQUIREMENTS

- The Whammer hooks up to a standard garden hose with minimum 25 PSI, maximum 85 PSI water supply.

Because conditions of use are beyond our control, no warranty, guarantee or representation is made or intended in connection with the use of this product.
