

Metalworking Coolants

	Grinding	Drilling	Milling	Tapping / Threading	Turning	Broaching
SYNTHETIC FLUIDS						
Tech Cool 3700 Grinding fluid for ferrous metals	○					
Tech Cool 3718 Light/medium machining fluid for ferrous metals		○	○		○	
Tech Cool 35410 Medium/heavy duty machining fluid for ferrous metals		○	○	○	○	
Gardocool C 9116 Premium, high lubricity, multi-metal safe machining fluid		○	○	○	○	○
Tech Cool 35625 High lubricity machining fluid for aluminum and its alloys		○	○	○	○	
SEMI - SYNTHETIC FLUIDS						
Tech Cool 35100 Low oil content multi-metal safe machining fluid	○	○	○		○	
Tech Cool 35200 Medium oil content multi-metal safe machining fluid - excellent cast iron fluid		○	○	○	○	
Tech Cool 35048 High oil content multi-metal safe machining fluid - excellent for aluminum and its alloys		○	○	○	○	
Tech Cool 35075 Premium, high oil content, multi-metal safe machining fluid - can be used on stainless steel and exotic ferrous alloys		○	○	○	○	
Gardocool C 9157 High oil content, medium to heavy duty, chlorinated EP, multi-metal safe machining fluid		○	○	○	○	○
Tech Cool 35044 Medium oil content, general duty, chlorinated EP multi-metal safe machining fluid		○	○	○	○	○
Tech Cool 35052 Premium, high oil, chlorinated, multi-metal safe machining fluid	○	○	○	○	○	○
SOLUBLE OILS						
Gardocool C 9176 Medium duty, phosphorus EP, multi-metal safe machining fluid		○	○	○	○	○
Gardocool C 9177 Heavy duty, chlorinated EP, multi-metal safe machining fluid		○	○	○	○	○
NEOSYNTHETIC FLUIDS						
Gardocool C 9126 Non-petroleum oil containing, medium/heavy, green machining fluid		○	○	○	○	
Gardocool C 9147 Non-petroleum oil containing, medium/heavy, green machining fluid		○	○	○	○	

Chemetall for all your metalworking needs

Since 1909, Chemetall has been meeting and even exceeding the unique needs of the metalworking industry. With our technologically advanced R&D team, Chemetall has been developing, manufacturing, and supplying high quality products and equipment systems.

As an ISO9001 certified company, our expertly trained and knowledgeable representatives provide invaluable process design, as well as equipment and software recommendations, programming, and installations.

Combining our outstanding products and systems with our dedication for delivering excellent technical support and service has made Chemetall a leader in the metalworking field.

Please contact your local Chemetall sales professional for additional product offerings to suit all of your metalworking needs.

ERIE INDUSTRIAL

931 GREENGARDEN BLVD.
ERIE, PA 16501
800-999-0575

Chemetall is proud to serve the Americas from the following locations:

Corporate Headquarters and Eastern Branch

675 Central Avenue
New Providence, NJ 07974
908-464-6900
Toll-free: 800-526-4473
Fax: 908-464-4658

Chemetall Canada

115 East Drive
Bramalea, Ontario L6T 1B7
905-791-1628
Toll-Free: 800-668-4318
Fax: 905-791-1527

Chemetall Central Branch

13177 Huron River Drive
Romulus, MI 48174
734-941-3800
Toll-free: 877-941-3800
Fax: 734-941-5524

Chemetall Mexicana, S.A. de C.V.

Avenida El Tepeyac No. 1420-B
Parque Industrial O'Donnell-Aeropuerto
El Marqués, Querétaro, CP 76250 México
52-442-227-2000
52-442-227-2001
